Prefecture, Japan

- Searched restaurants will be displayed on this page
- Restaurants with available seats can also be filtered by using the dropdown box on the right side of the Location box.

Restaurant Page

[illegible]

- This page displays all the restaurant information as well as their current seat status.
- If a restaurant has multiple floor layouts, the user can switch the display by clicking on the green boxes on top of the layout.

Account Registration

Login

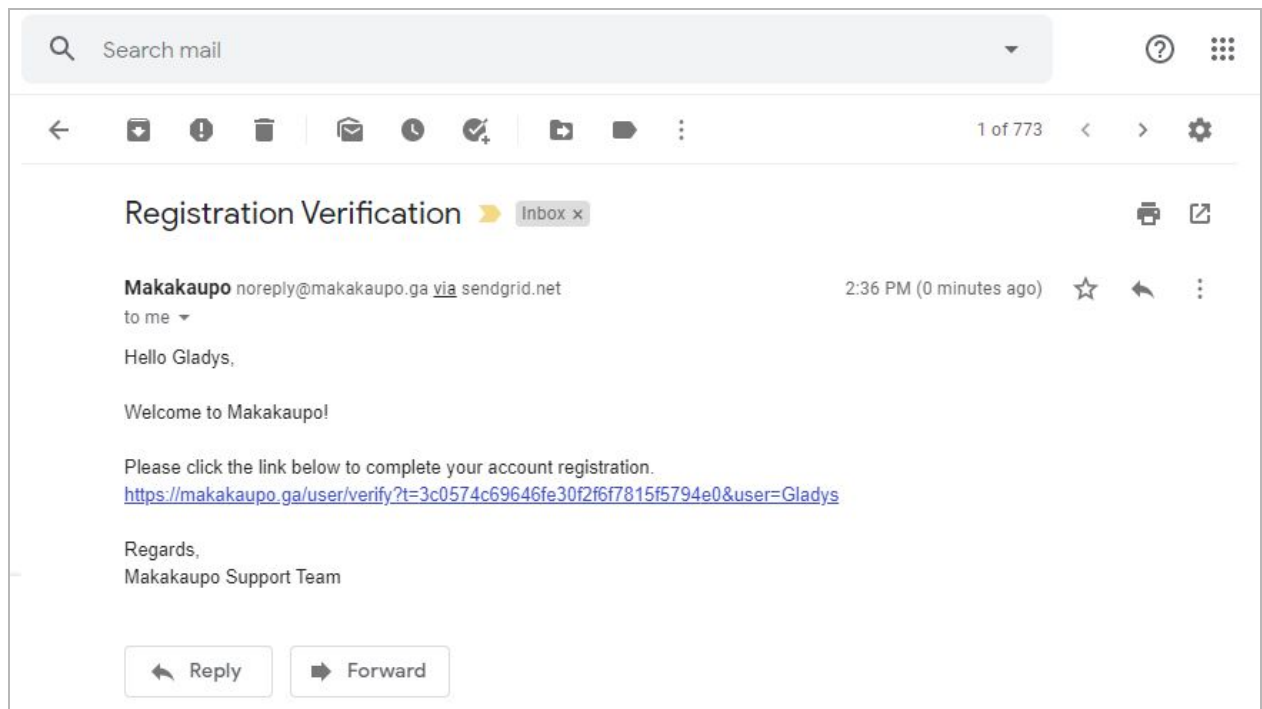

Register

Create an Account

REGISTER

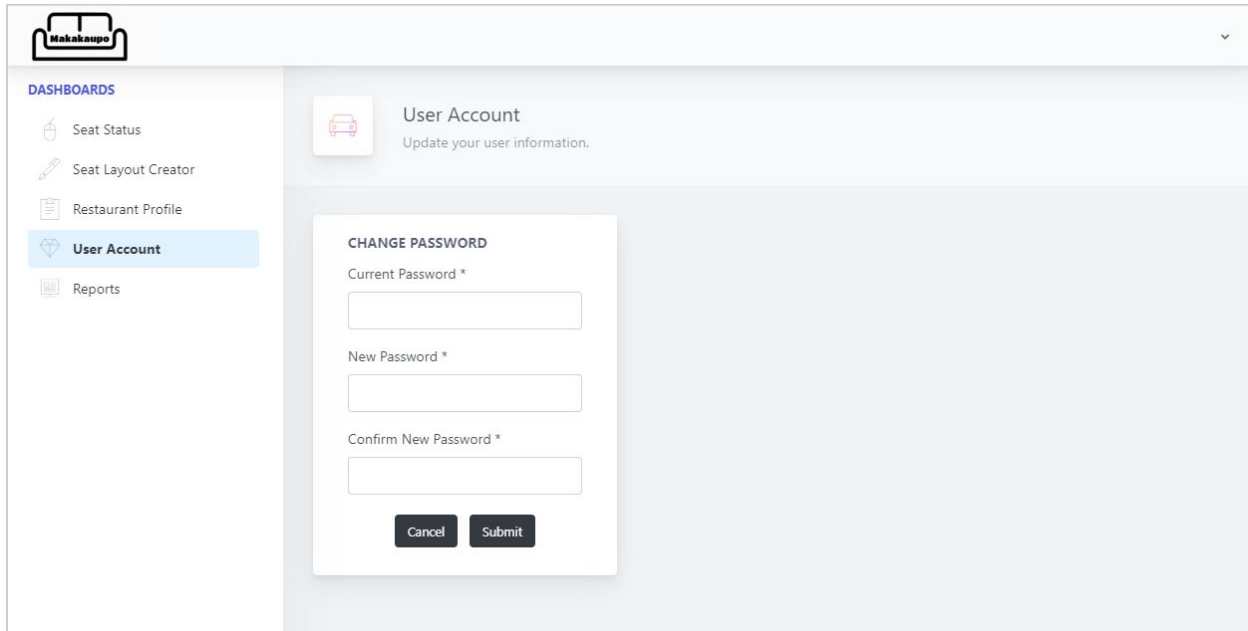

- To register a new account, click on the “Register” button on top of the page.
- Fill-up all the details on the form, then click “Register”. A message will be displayed on top of the form and an email will be sent to the user.

Registration Verification

- To complete the registration process, click the link provided on the email sent by the system.
- The user can now log into the system and use all its features.

Change Password

The screenshot displays the Makaka app interface. At the top, the title 'Change Password' is centered. Below it, the app's header features the 'Makaka' logo on the left and a dropdown arrow on the right. A sidebar on the left lists dashboard options: 'Seat Status', 'Seat Layout Creator', 'Restaurant Profile', 'User Account' (highlighted with a blue background), and 'Reports'. The main content area is titled 'User Account' with a subtitle 'Update your user information.' and a user icon. A modal form titled 'CHANGE PASSWORD' is open, containing three input fields: 'Current Password *', 'New Password *', and 'Confirm New Password *'. At the bottom of the form are 'Cancel' and 'Submit' buttons.

- To change the user's password, both the current and new passwords should be provided.
- A password should have a minimum length of 8 characters.

Submit

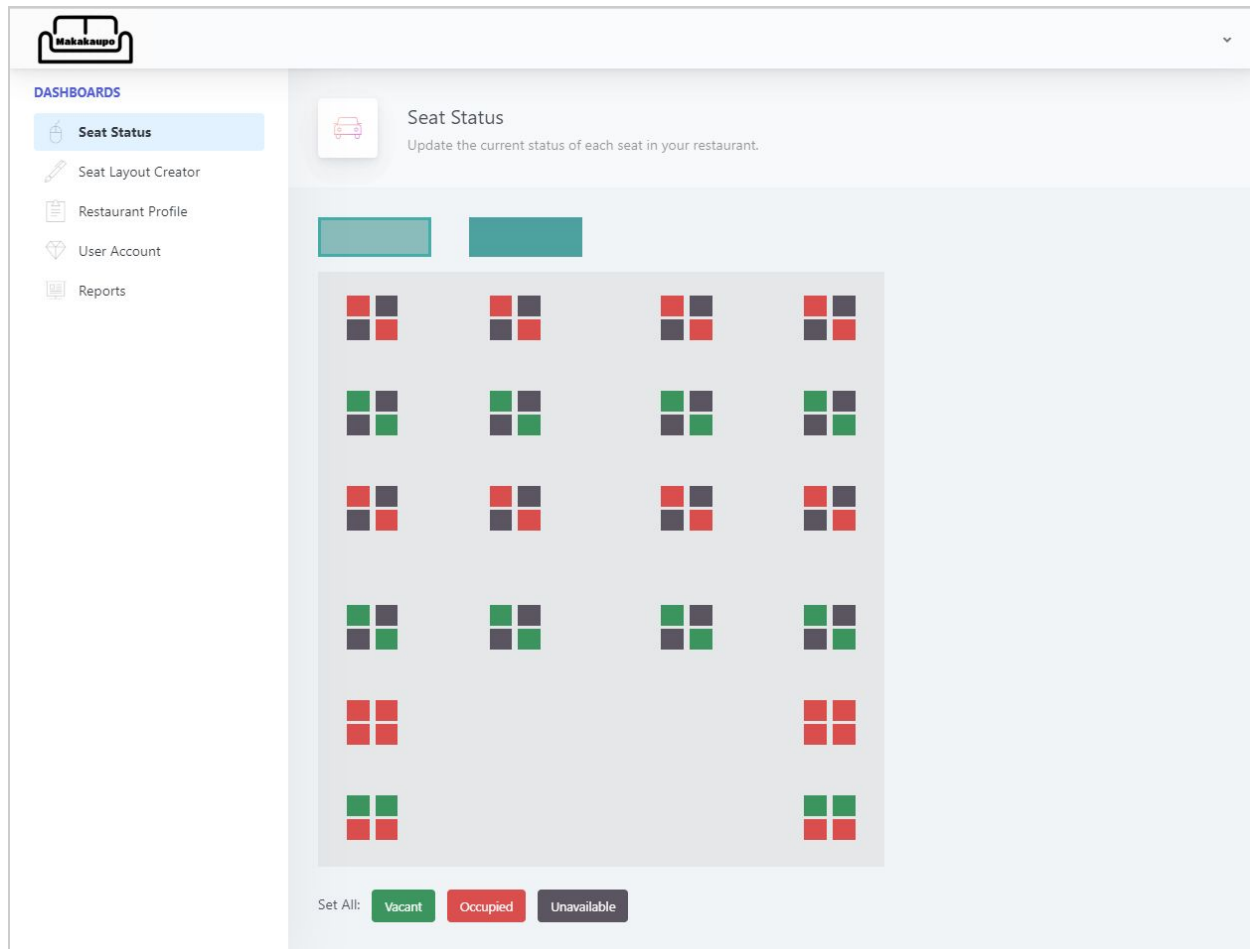

- This page can be used to update all the restaurant's information.
- An image can be uploaded by selecting the "Choose file" button.
- The restaurant's address can be entered by searching for it on the map.

Seat Layout Creator

- Click on the small boxes to create a new seat.
- Multiple layouts can be created by clicking on the green boxes on top of the layout.
- Click on the Save button to save the layout you created.

Seat Status

- Click on the target seat to change its status.
- The status of all seats currently displayed can be changed at once using the buttons below the layout.
- There are currently 3 status to choose from:
 - Vacant: Green
 - Occupied: Red
 - Unavailable: Gray

Reporting Tool

The screenshot displays the 'Reporting Tool' interface. On the left is a sidebar with a 'DASHBOARDS' section containing links to 'Seat Status', 'Seat Layout Creator', 'Restaurant Profile', 'User Account', and 'Reports' (which is highlighted). The main content area is titled 'Reports' and includes a sub-header 'View the number of costumers in your restaurant each day as well as the most frequently used seats.' Below this are two panels. The 'CUSTOMERS' panel has date filters 'FROM 2020-05-01' and 'TO 2020-05-10', a table with 4 rows of customer data, and 'Export CSV' and 'Generate PDF' buttons. The 'TOP SEATS' panel has the same date filters, a table with 10 rows of seat data, and the same export buttons.

CUSTOMERS

No.	Date	No. of Customers
1	2020-05-10	43
2	2020-05-09	277
3	2020-05-03	13
4	2020-05-02	90

Export CSV Generate PDF

TOP SEATS

No.	Row	Column	No. of Customers
1	3	3	7
2	3	18	6
3	3	19	6
4	10	18	6
5	23	3	6
6	16	13	6
7	16	18	6
8	24	3	6
